Administration

Part 107

- Air traffic authorization is required for operations in Class B, C and D airspace, and E Surface Area and E Surface Extension
- Class G airspace does not require authorization below 400'
- Operations are permitted within a 400 foot radius of a structure and up to 400 feet above the height of a structure

Part 101 (Modelers, Recreation, Hobbyists)

- UAS weighing more than 0.55 pounds must registered
- Visual line-of-sight (VLOS) only; the UAS must remain within VLOS of the remote pilot in command
- When flown within 5 miles of an airport, the UAS pilot provides the airport operator and the airport air traffic control tower with prior notice of the operation
